

Adventurers Club Update - May 11/2020

With the slight loosening of some of the restrictions related to COVID 19, the executive had some discussion about resuming our hiking activities in a safe manner. We did come to a consensus that it is still premature to resume meeting to hike as a scheduled club activity.

Many members are choosing to hike in personal small groups and we encourage you to keep your “bubbles” small and consistent, while continuing to enjoy the spring weather.

Unfortunately it appears our June picnic will also be canceled.

This pandemic has turned our world upside down and I personally feel no one is able to predict what will be happening in the near future. So ...until further notice club activities continue to be suspended.

I do hope this finds everyone well and coping with this strange new normal. If you have any questions or concerns give me a call.
